

## Puma Brake and Parts Cleaner

Puma Brake and Parts Cleaner is a highly volatile hydrocarbon solvent that performs well in situations requiring a solvent that evaporates quickly leaving no residue.

- ✓ Fast Evaporation
- ✓ Low Residue

### General Industrial Applications

Agriculture, construction, mining, transport and a range of heavy-duty workshop environments.

- > Brake cleaner
- > Metal cleaner
- > Preparation prior to painting

### Features

- > Performance focus
- > Fast evaporation
- > Low residue contact cleaner
- > Safe to use on all hard surfaces

### Typical Physical Characteristics

Tests	Typical Result
Specific Gravity	0.67 - 0.70
Flashpoint	<0°C
Boiling Range	50°C - 135°C
Aromatic Content	3%
Naphthene Content	22%
Paraffin Content	75%

*These characteristics are typical of current product methods whilst future production will conform to Puma Lubricants specifications, variations in these physical characteristics may occur.*

### Health & Safety Environment

- > This product is unlikely to present any significant health and safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.
- > Avoid contact with eyes and skin, use proper impervious gloves with used oil. After skin contact, wash immediately with soap and water. Guidance on health and safety is available on the appropriate Safety Data Sheet (SDS) which can be obtained from [sds.pumaenergy.com.au](http://sds.pumaenergy.com.au)

### Protect the Environment

- > Take used oil to an authorised collection point. Do not discharge used or new oil into drains, soil or water.

### Additional Information

- > Technical advice may be obtained from your Puma Energy Representative.
